online courses, designed for each specialty

Se cree que muchos de estos efectos están relacionados específicamente con el CBD. Por ejemplo, los estudios han demostrado que el CBD puede aliviar el insomnio, la ansiedad, la artritis, la inflamación y otras afecciones físicas. Las indicas a menudo se recomiendan para uso nocturno debido a su potencial para promover el sueño. Se puede recomendar este tipo de cepa si usa marihuana medicinal para una de las siguientes condiciones:

Bubba Kush

Bubba Kush es una variedad indica que ha ganado notoriedad en los EE. UU. por sus fuertes efectos tranquilizantes.

Narely Cortés Irizarry

Empresaria - Escritora Consultora de la Industria del Cannabis
